## Individual Health Care Plans: Developing and Implementing Effective Schoolwide Practices

Register here: <https://www.surveymonkey.com/r/HX7PY67>

### When?

Aug. 8, 1 p.m.-5 p.m., Aug. 9, 8 a.m.-Noon

### Where?

Hilton Kansas City Airport Hotel, Kansas City, Mo.

### What Does It Consist of?

Health care plans are written plans used in the school setting to communicate students' health conditions and their care/accommodation needs. They are written for a variety health conditions and make it easier for school teams to determine appropriate health care interventions. This training will focus on effective methods for creating and utilizing health care plans in order to better meet students' individual needs. Participants in the training will get hands-on practice using a "toolkit" in order to effectively use this model for schoolwide implementation. All participants will also be able to participate in an online community of practice for additional learning and assistance throughout the school year.

### Who Should Attend?

Elementary school nurses. **All participants must bring their own laptop.**
