

HEARTLAND
GENETICS SERVICES
COLLABORATIVE

Heartland Genetics Services Collaborative

Partnerships

Collaborative:

- Definition:
 - produced or conducted by two or more parties working together
- Benefits
 - Leverage resources
 - Force-Multiplier of limited funding, time & effort

Why I am an advocate

OU Cystic Fibrosis Center

405-271-2006
OU Children's Physicians Building
1200 N. Phillips Avenue, 9th Floor, Suite 9100

Our pediatric pulmonologists are **experts in the evaluation, care and treatment** of children and adolescents with **problems related to the lungs and respiratory system**. Services to children with asthma include:

- ▶ Complete evaluation
- ▶ Individual asthma education sessions
- ▶ Written asthma treatment and intervention plans

The **Pediatric Pulmonary and Cystic Fibrosis Center**, a national Cystic Fibrosis Foundation accredited referral center, provides diagnosis, management and comprehensive care for patients with respiratory diseases. The center **is the only fully certified cystic fibrosis center in the state**. It offers comprehensive, multi-disciplinary care for people of any age with cystic fibrosis.

We offer a full spectrum of techniques for evaluating pulmonary dysfunction through our **pediatric pulmonary function testing lab**. These evaluation techniques include the following:

- ▶ Flexible bronchoscopy
